Cheese Slicing Lines

Peak performance – slice by slice

You only need two or three personnel to achieve a slicing rate of up to 6000 per minute, an on-weight output rate of up to 100 % and a give-away of less than 1 %. It’s all down to Schindler & Wagner precision. You can select the type of portioning and presentation you require for your products simply and intuitively on the touchscreen display.

Technical Versions	**Line Parameters**
with or without interleaver-, laser tunnel-, product-prescale-, camera-vision system	up to 6000 slices/min
small-, medium-, large packages	up to 240 packages/min
shingled, stacked, folded, wafer-thin, stagger-stacked, and circular portions packed into single-component packages	on-weight 92 - 100 %
slices and slabs	give-away 0,1 - 1,0 %
